Inside Job

[120 min]

SCREENINGS

Inside Job is the first film to expose the shocking truth behind the economic crisis of 2008. The global financial meltdown, at a cost of over \$20 trillion, resulted in millions of people losing their homes and jobs. Through extensive research and interviews with major financial insiders, politicians and journalists, *INSIDE JOB* traces the rise of a rogue industry and unveils the corrosive relationships which have corrupted politics, regulation and academia.

In his Oscar acceptance speech for Best Documentary, Charles Ferguson began by reminding us that 3 years after our worst financial meltdown "*not a single financial executive has gone to jail.*" Isn't it time to take action?

"No drug, not even alcohol, causes the fundamental ills of society. If we're looking for the source of our troubles, we shouldn't test people for drugs, we should test them for stupidity, ignorance, greed and love of power." ~PJ O'Rourke

"Corporation, n., An ingenious device for obtaining profit without individual responsibility." ~Ambrose Bierce 1842-1914
