corner of Broadway & Windsor, entrance on Windsor

Next month, Aug 18<sup>th</sup>: *Will the Real Terrorists Please Stand Up*  
(who gets jailed, who goes free in America)

### Burzynski the Move Cancer is Serious Business

[106 min]

**S** *Burzynski, the Movie* is the remarkable story of Stanislaw Burzynski, MD, PhD who won the largest, and possibly the most convoluted and intriguing legal battle against the Food & Drug Administration in American history.

**Y** This documentary takes the audience through the treacherous, yet victorious, 14-year journey both Dr. Burzynski and his patients have had to endure in order to obtain FDA-approved clinical trials of Antineoplastons, which Burzynski developed to treat a wide range of cancers - with remarkable and continuing success.

**N** "topically fertile ... tickles the mind ... a stoic victim of patent fraud, government harassment and scientific sabotage" ~NYT

**O** "a dramatic expose of the FDA and its incestuous relationship with Big Pharma as it seeks to first discredit, and then to co-opt Burzynski's discovery" ~Variety

"It constitutes nothing less than the one of the worst abuses of the criminal justice system I have ever witnessed." ~Richard Burr, congressman [R-NC], on the government's pursuit of Burzynski

"People think the FDA is protecting them. It isn't. The FDA protects the big drug companies and are subsequently rewarded; using the government's police powers they attack those who threaten the big drug companies." ~ Dr Herbert Ley, former FDA Commissioner
