Last Word on the Assassination The JFK Assassination: the Jim Garrison Tapes

[120 min]

S This documentary, a live webcast from UNLV, is the
y definitive [account] of what happened to President
n Kennedy in Dallas, and what has happened to America
o and the world since. ... It features the award-winning,
p much suppressed *'The JFK Assassination: The*
S *Garrison Tapes,'* in which New Orleans' DA Jim
i Garrison tells the details of his case against Clay Shaw,
S —whom he arrested and tried for conspiracy in JFK's
murder—and the CIA. This myth-shattering film is
followed by a panel of 3 of the most knowledgeable
writers-researchers in the field: Jim Marrs, author of
'Crossfire,' a foundation for the film *'JFK,'* Dick Russell,
co-author of NYT best-seller, *They Killed Our*
President; and Joan Mellen, the definitive biographer of
Jim Garrison and author of *A Farewell to Justice.*

"'Dallas Police declare case closed.' Kennedy is killed on Friday,
Ruby kills Oswald on Sunday and the Dallas PD says the case is
closed (on Sunday). They haven't interviewed a witness, there was no
confession, but the case is closed. What type of investigation is that?"
~Jesse Ventura, co author of *They Killed Our President*

"An obvious consequence of the obfuscations of the Warren Commission and the House Select Committee has been the ease with which the 9/11 Commission was able to conceal important truths."
~Joan Mellen, author 'Farewell to Justice'

"If Garrison had succeeded in proving that Shaw was one of the ring leaders, and that Shaw was connected to the CIA, he would have pulled the plug on the conspiracy...and it would have stared in the face the great big letters W-H-Y. WHY was the president killed?" ~Col Fletcher Prouty

"Lee Harvey Oswald killed no one at all. ...He had nothing to do with the assassination. ...John Kennedy was killed by a major force. The simplest way to describe it is Central Intelligence" ~ Jim Garrison

"John Barbour's film about Jim Garrison might be the most important program about the JFK assassination that's ever been produced."
~ George Knapp
